

SURIYADEEPAN A

Network Engineer L1

suriyadeepan14@gmail.com | +91 9361937763 | Chennai, Tamil Nadu

PROFESSIONAL SUMMARY

Network Engineer with 2+ years of experience in enterprise network operations. Skilled in Docker, Kubernetes, Jenkins, Terraform, and AWS with hands-on experience in CI/CD pipelines and system monitoring using Grafana and Prometheus. Passionate about cloud and modern DevOps practices with a strong interest in building scalable and reliable systems. Currently transitioning into a DevOps Engineer role to leverage networking expertise in automated cloud environments.

TECHNICAL SKILLS

DevOps & Automation: Kubernetes, Docker, Terraform (IaC), Jenkins, CI/CD, Git, GitHub

Cloud Platform: Amazon Web Services (AWS), EC2, Cloud Workload Deployment

Monitoring Tools: Grafana, Prometheus

Scripting Languages: Python, PowerShell

Networking: CCNA, LAN/WAN, VPN, Router & Switch Configuration, Linux Administration

WORK EXPERIENCE

Network Engineer — Movate

Mar 2026 – Present

- Managing enterprise network and infrastructure operations in production environments
- Supporting cloud-based workload deployments and network performance optimization

Network Engineer — UST Global

Jan 2025 – Feb 2026

- Managed enterprise network and infrastructure operations in production environments
- Deployed and monitored cloud-based workloads on AWS
- Performed system monitoring and troubleshooting using Grafana and Prometheus
- Optimized network and system configurations, improving data transfer performance by 20%

PROJECTS

CI/CD Pipeline Deployment using Jenkins

Stack: Jenkins, GitHub, Git

- Designed and deployed an end-to-end CI/CD pipeline using Jenkins to automate build, test, and deployment of a web application
- Integrated GitHub for source code management and configured webhooks to trigger automated pipeline runs on every code push
- Reduced manual deployment effort and improved release consistency by automating the full delivery workflow

Smart Shopping Trolley using RFID Technology

- Streamlined automated tasks including order processing, bill calculation, and inventory management, reducing errors and saving time
- Replaced manual workflows with an automated system, improving shopping efficiency by 25% for both customers and staff

INTERNSHIP

Intern — Airports Authority of India

2023

- Gained knowledge of communication systems between aircraft pilots, ground stations, and radar systems (CNS/ATM)
- Observed and studied networking infrastructure used for inter-department communication and data transmission systems

EDUCATION

B.E. in Electronics and Communication Engineering

DMI College of Engineering | 2020 – 2024 | CGPA: 7.5 / 10

CERTIFICATIONS

- AWS Cloud Computing – ICT Academy
- Python Programming – Guvi
- Network & Hardware Certification – Daphne Infotech
- Internship Completion – Airports Authority of India
